Indian Institute of Technology, Roorkee	2027
Bachelor of Technology (B.Tech)	CGPA: 7.346
OPG World School (CBSE)	2022
Intermediate (Class XII)	95.00%
Mount Carmel School (CBSE)	2020
Matriculate (Class X)	97.40%

TECHNICAL SKILLS

Languages & Tools: Python, SQL, C++
Product Strategy & Metrics: User Journey Mapping, Feature Prioritization, Competitor Analysis, User Personas
Data Science & Analytics: Pandas, scikit-learn, SHAP, Predictive Modeling, Data Visualization
AI & Machine Learning: Generative AI, Large Language Models (LLMs), RAG, Embeddings

PROFESSIONAL EXPERIENCE

Edden Internet Pvt. Ltd.	December 2024 – January 2025
<i>AI Product Analyst Intern</i>	
- Defined requirements for GenAI video creation, optimizing synthesis for personalized delivery. - Deployed agentic pipelines to automate personalized content recommendations and elevate user retention. - Collaborated across teams to find and fix delays in the product workflow, speeding up AI feature rollouts.	

PROJECTS

Blinkit Product Case Study: User Retention Strategy	March 2025 – June 2025
- Conducted mixed-methods research across 200+ reviews and 19 interviews to identify churn drivers. - Proposed three data-backed features increasing subscriptions, boosting AOV, and reducing cart abandonment. - Developed user personas and used Effort-Impact matrices to target retention and expectation gap solutions.	
Optimizing Air Travel Through Flight Delay Prediction	June 2025
- Analyzed 600K+ flight records to identify delay patterns via predictive modeling and SHAP analysis. - Built dashboards delivering actionable insights to support data-driven operational decisions.	
Credit Card Score Modelling via Classification & Risk Techniques	May 2025 – June 2025
- Built credit risk models (Logistic Regression/Random Forest), resolving 22% class imbalance via SMOTE. - Achieved 81% recall, 0.615 F2-score, and 0.789 AUC-ROC, reducing false negatives by 40%.	
Sales Analysis using SQL	August 2024
- Developed 20+ business KPIs (cost/unit, margins, SLAs) using SQL and Python to analyze 100+ suppliers. - Automated end-to-end data pipelines, cutting reporting overhead by 80% to accelerate real-time executive decisions.	

ACADEMIC ACHIEVEMENTS

- Secured **99.68 percentile in JEE Mains 2023** - Ranked **3,757 out of 1.2 Million candidates** nationwide.
- Qualified **NTSE (Stage 1 & 2)** - Secured rank within **top 2,000 out of 1 million+ candidates** nationwide.
- Qualified **JSTSE** - Secured **Rank 24 among 50,000+ candidates** in the Junior Science Talent Search Exam.
- Certificate of Merit** - Placed within **top 300** in the Indian Olympiad Qualifier in Mathematics (**IOQM-2020**).

LEADERSHIP & EXTRACURRICULARS

Maintenance Secretary <i>Rajiv Bhawan, IIT Roorkee</i>	November 2025 – Present
- Represented 650+ residents, bridging communication with administration and resolving key student issues. - Spearheaded infrastructure upgrades, managing a Rs. 1M+ welfare fund to enhance living for residents. - Optimized a Rs. 250K+ budget via competitive negotiations to procure sports inventory and custom jerseys.	
Executive Member <i>Tinkering Lab, IIT Roorkee</i>	May 2025 – Present
- Collaborated in cross-functional teams to deliver software and AI/ML products from ideation to deployment. - Coordinated national-level hackathons including Tinkerquest, engaging 1,000+ participants nationwide.	
Event Coordinator <i>Cognizance, IIT Roorkee</i>	March 2025
Directed end-to-end technical competitions at a major fest, scaling engagement for 3,000+ attendees.
